Barbara Yatauro, Local 393

Jeffrey Szabo, Chief Executive Officer, called the meeting to order at 3:05 p.m. upon all Members of the Board being present.

The Chairman welcomes everyone to the March Board Meeting and wished everyone a happy spring. He noted that the Authority adopted a \$346 million budget for Fiscal Year 2027, with a strong focus on infrastructure and water treatment investments. Approximately 36% of the budget is allocated to capital projects, including advanced treatment systems, well replacements, and water main improvements. An additional \$3.9 million has been designated for replacing aging water meters and piloting next-generation cellular meters. The Chairman thanked both CFO Chris Cecchetto and Barbara Yatauro, Local 393 their teams, and all departments for their efforts in developing the budget.

The Chairman reported that Production Control and Laboratory teams are in the process of bringing more than 100 seasonal wells back online in preparation for summer demand. He noted that the startup process includes mechanical setup, system flushing, and water quality sampling to ensure all standards are met before the wells enter service.

The Chairman provided an update on ARPA-funded infrastructure projects, noting that construction is ongoing at National Boulevard, South River Road Phase 2, and Starr Boulevard. These projects will expand access to public water for areas currently relying on private wells. He added that teams are working to submit all invoices by the November 1 deadline to meet Suffolk County reimbursement requirements.

Lastly, the Chairman announced that the Authority has entered into a 40-year agreement to assume operations of the Saltaire water system, resolving a long-standing matter regarding its management.

Mr. Szabo introduced CFO Christopher Cecchetto, who presented the Fiscal Year 2027 Budget and Rate Proposal to the full Board and thanked everyone for being present. Chris outlined that the proposed FY27 budget totals approximately \$346 million, representing an 11.6% increase over FY26, driven primarily by increases across operating, capital, and debt service categories.

He explained that the budget is composed of 50% operating and maintenance, 36% capital projects, and 14% debt service. Key cost drivers include payroll, benefits, infrastructure maintenance, and significant capital investments in system improvements, facilities, and water quality treatment projects.

Chris highlighted that the Authority continues to maintain strong financial performance, including AAA bond ratings, strong liquidity, and favorable financial ratios, while also receiving external recognition for treasury management excellence.

He reviewed the capital plan, noting increased investment in engineering, facilities, and infrastructure projects to support system reliability and regulatory requirements. Debt service obligations were also discussed, with projections showing increases in future years as capital investments continue.

To meet financial targets, Chris presented a proposed rate increase of approximately 2.8%, equating to about \$16.62 annually for the average customer. He noted that even with the proposed increase, SCWA rates remain among the lowest compared to regional peers. Chris concluded by emphasizing that the proposed budget supports continued investment in infrastructure, maintains financial stability, and ensures the Authority can continue providing high-quality water and service at a reasonable cost.

Mr. Milazzo, General Counsel, noted that this was a public hearing and that the budget hearing was posted in Newsday, with no public comments received. Ms. Mercado thanked Mr. Cecchetto for his thorough presentation and expressed agreement with the modest rate increase. Mr. Cecchetto thanked everyone again for their time and consideration.

Barbara Yatauro, Local 393 came forward, speaking as a customer rather than as an employee of the Authority. She expressed concern regarding the \$20 per account charge, stating that she believes it is unfair for larger accounts and smaller accounts, like homeowner to be charged the same amount. The Chairman responded that the Authority could investigate this matter further and conduct research to explore a more equitable approach.

Mr. Lefkowitz presented the minutes of the regular board meeting on February 26, 2026, and on motion made by Ms. Mercado, duly seconded by Mr. Rose, and unanimously carried, it was
