FROM:

SUBJECT: Residential Development Ready for Inspection - Request to Inspect

Name of Residential Development:	
Location:	
Authorization #:	Date:
Phone #:	Fax #:

The above noted Residential Development is ready for inspection:		
<input type="checkbox"/>	Curbs installed	Request for services stub at time of main installation for commercial properties only: <u>Must be paid for at time of contract</u>
<input type="checkbox"/>	No curbs required: Road is graded within 6" of finished grade and road centerline stakes are placed at 50' intervals	
<input type="checkbox"/>	Drainage and/or sewer installed	<input type="checkbox"/> Yes <input type="checkbox"/> No
<input type="checkbox"/>	Sewer laterals staked w/invert info from top of curb clearly marked	If yes, then check the following:
<input type="checkbox"/>	Grading & clearing completed within 6" of finished grade	<input type="checkbox"/> Lot #'s clearly marked
<input type="checkbox"/>	Hydrant locations staked out	<input type="checkbox"/> Service locations staked out
<input type="checkbox"/>	Property corner lines staked out	<input type="checkbox"/> 10' area behind edge of road or curb cleared & graded for vault installation
<input type="checkbox"/>	Easements cleared (*)	
<input type="checkbox"/>	All payments made	

Please inspect the above residential development and install the water mains as soon as possible. I understand that if we do not pass inspection, no further inspection will be made until the noted discrepancies are corrected and we pay the \$80.00 reinspection fee at the appropriate Commercial Office.

(*) You can expedite this project by submitting a deposit to your local District Office if easements have not cleared. This deposit will be returned when easements clear.

NOTE TO BUILDERS: The contractor will NOT connect to your service lines on Fast-Track services. Your plumber will have to make the connection.
