

# HR Announcement

Please be advised that we have contacted several testing facilities in Suffolk County who will give the COVID-19 test to our employees who are experiencing symptoms. Be aware that there are some facilities in Suffolk County that will not give a test but instead will supply a “presumed positive” letter. We want our employees to be tested so they are not placed in mandatory isolation unnecessarily.

HR is speaking with individual employees and guiding them through the process; however, please print this email, post on bulletin boards and distribute to your employees so that they will have the information as we head into the holiday weekend. I’m attaching the Essential Employee Letter which can also be distributed to all employees.

## **Testing Locations That Will Test SCWA Employees With Essential Employee Letter If Exhibiting COVID-19 Symptoms**
